**Entrance to the Akashic Records by Aron & Doris Abrahamsen-** Aron & Doris reveal to you the method they developed and used for over 25 years to enter the Akashic Records to obtain life readings for over 7,000 people around the world. The first portion includes Aron's personal instructions for achievement to your destination. Then Doris leads you in a guided meditation entering the Akashic Records.

**Guidance by Aron Abrahamsen-**The quest for guidance is more a learning of how to listen, being alert to signs, trusting those signs, and finally from this, acting upon one's intuitive judgment. Even before I understood astral projection or started giving readings, we pursued guidance and received it. We have discovered that timing can be very crucial and that action is often required without hesitation. It is a matter of believing that what God says is true, and all that's needed is for us to follow up on what's been told us.

Ronald is also an internationally accredited speaker and workshop leader, a national award-winning radio commentator, and author of two novels, "My Name is Wonder" and "A Killer's Grace", a meditation audio set, "Breathing, Releasing, and Breaking Through", and the workbook, "Seeing True: Ninety Contemplations in Ninety Days".

The techniques bypass our intellect to nurture greater understanding, deepen our awareness, and allow us to act with greater clarity and effectiveness. Now Ronald has brought together those practices in an instructional three-disc format to support our efforts to realize a life that is more whole. Those who use these practices invariably experience greater inner calm, while some report significant, positive changes in relationships with others, the world and themselves.

## Convolutd

**The Curators by Guy Steven Needler** - Ever wondered what made the Universe? - Was it the big bang? - Why is it not expanding or contracting? Why does it appear to have an orderly level of functionality? Are there more universes within a much larger multiversal environment? If so, where are they? Are theoretical physicists correct?

In *The Curators* the reader is exposed to the mechanics of the multiversal environment we exist within and those entities that maintain it.

9781940265650 ..... 456 pages ..... \$32.00

**The History of God by Guy Steven Needler**- Through deep meditation and frequent contact with extraterrestrials and "source entities", Needler has produced a startling biography of God. This book is nothing less than a history of our universe that blends channeled wisdom, the new physics, past life regression, and the explication of ancient and esoteric texts. Needler discovered a way to transport himself through meditation to a place and state where he discovered many things about reality which he shares in this book. *The History of God* explains where God came from, the existence of other gods, the creation of the universes, the galaxies, the planets, and finally life on Earth including humans. We discover the purpose behind the creation of all of these things. Also included is information on extraterrestrials as a similar species and their involvement with the human race.

9781886940161 ..... 400 pages ..... \$16.00

**Beyond the Source Book 1 by Guy Steven Needler**- In his first book, *The History of God – A Channeled Work*, Guy gave the reader an insight into how he started higher level communications and how he managed to communicate with spiritual/energetic entities while gaining insights into the wonders that are all around us and what the truth is about our legends and myths. He also started his identification with the Origin and the Source Entity which explains the mechanics of the universe that one of its creations created. There were actually twelve Source Entities created by the Origin (or God as we have come to call it). This book reveals the first six of the twelve Source Entities and the work that each of them has done in their own environments which are very different to each other.

9781886940338 ..... 272 pages ..... \$17.00

**Beyond the Source Book 2 by Guy Steven Needler**- In *Beyond the Source-Book 1* Guy Steven Needler detailed his extended dialogue with our Source Entity, now identified as Source Entity One, and commenced dialogue with Source Entities Two through Six, also created by The Origin. During these dialogues he gained insights into the wonders and workings of the environments they created, establishing what entities inhabited their environments and how the Source Entities themselves were constructed. This new book, *Beyond the Source-Book 2*, concludes these dialogues by focusing on the final six Source Entities, Seven through Twelve. Book 2 reveals information that is radical in nature and is aimed at expanding mankind's collective incarnate consciousness, facilitating evolutionary progression. Indeed, after reading this book, no one should question the purpose of our existence.

9781886940444 ..... 340 pages ..... \$18.00

**The Origin Speaks by Guy Steven Needler** - In *The Origin Speaks* the reader is taken beyond the author's *Beyond the Source* books to a direct dialogue with the ultimate creator, the "all there is," the "absolute," the "Origin."

Have you ever thought about who or what God is or who the co-creators are? Or even, what is beyond God? What if God was indeed finite and that there was a much bigger "infinite" being, one that created God and the co-creators?

9781940265100..... 464 pages.....\$22.50

**The Three Waves of Volunteers and The New Earth by Dolores Cannon-** This is a fascinating narrative that reveals the cosmic forces that have been in play over the past 66 years. Help has come from the outside to preserve the human race. In 1945 when the atomic bombs were exploded, our "protectors" and "watchers" in outer space saw that Earth was on a collision course with disaster. The prime directive of non-interference prevented them from taking any action, but then they came up with a brilliant plan to save Earth and assist her in her ascension. They couldn't interfere from the "outside," but maybe they could influence from the "inside." So, the call went out for volunteers to come and help. "Earth is in trouble - who wants to volunteer?" Dolores Cannon, through her hypnosis work has discovered three waves of these volunteers. Some have come direct from the "Source" and have never lived in any type of physical body before. Others have lived as space beings on other planets or other dimensions. Because all memory is erased upon entry to the Earth dimension, they do not remember their assignment. Thus, these beautiful souls have a difficult time adjusting to our chaotic world. These souls have a vital role to play as they help the rest of us ascend to the New Earth.

## Healing

**A Small Book of Comfort by Lyn Willmott** - Guided by her own experiences of dealing with chronic depression, Lyn Willmott has written a series of dialogues designed to inspire people who are looking for methods to change their lives. Just the everyday stress of living is causing many people to search for a more positive meaning to their lives, while others are struggling to survive the ravages of mental trauma. With this in mind, Lyn is suggesting we use the powerhouse of our own inner self to bring about the transformation we are seeking, and within these twenty-two dialogues there is a way to do this.

## History & Prophecy

**Elder Gods of Antiquity by M. Don Schorn**- This initial volume of a new trilogy reveals the flaws and inconsistencies with our present explanations for humanity's origins and Earth's development. Reexamination of geological, archaeological, and paleoanthropological records produced the Elder Gods theory, which explains Earth's past and humankind's evolution as the result of ancient contact with extraterrestrial visitors. This theory proposes that interventions by two different groups of otherworldly beings influenced Earth's development and humanity's ancestry.

**Legacy of The Elder Gods by M. Don Schorn**- As the second volume within this continuing book series, this journal reveals further validation of the Elder Gods theory. Each volume was written as a stand-alone book, allowing this trilogy to be read in any order. Additional documentation derived from ancient texts and arcane historic records suggest that otherworldly beings bestowed vast knowledge, cultural gifts, and advanced levels of technology upon the early civilizations of Earth. Discover the motive behind the extraterrestrial development of our human species, and the true purpose of supplying ancient guidance and help to the early inhabitants of our planet. Learn how various religious beliefs have been altered since their ancient inception.

# History & Prophecy

**Gardens of The Elder Gods by M. Don Schorn-** This Third Journal of the Ancient Ones provides further documentation of otherworldly contact throughout Earth's ancient history, revealing a body of astonishing evidence and extraordinary revelations further supporting the Elder Gods theory. New evidence focusing on cryptic archaeological discoveries reveals advanced ancient societies suggesting they formed as a result of extraterrestrial influences. Those civilizations are substantiated with evidence from archaic texts, extant fossils, and an abundance of anomalous artifacts and relics discovered within their cultural ruins. This volume retraces the migratory paths taken to repopulate Earth after the Great Flood, exposing the mysteriously quick reemergence of civilization once flood waters receded.

**Conversations with Nostradamus Volume 1 by Dolores Cannon-** Through a million-to-one chance contact through hypnosis, Nostradamus has broken through to our time period to reveal the events he foresaw rushing toward humankind. The master himself explains the puzzles he carefully concealed in code within his famous quatrains or prophesies. By speaking from his time to our time, he warns us so we can use our free will to help change the future. He said, "If I show you the most horrible things man can do to himself, will you do something to change it?"

**9781886940000 ..... 368 pages ..... \$14.95**

**Conversations with Nostradamus Volume 2 by Dolores Cannon-** This volume includes: More about the rise and the location of the Anti-Christ, including his horoscope; the correlation of 666 (the mark of the beast) and computers; More about the third world war and what countries will be affected; how AIDS was a planned disease by those in power, and when the cure will be found; dangerous new technology to control the weather and earthquakes; maps showing the portions of the continents that will remain after the axis shift and the melting of polar icecaps; horoscopes estimating the date of the Earth shift, as based on Nostradamus' quatrains; the role of Space Visitors during this time of tribulation; a look at the world of future after the war and the shift. These two volumes are an exciting journey into the realms of timeless and metaphysical adventure. "Fabulous reading and extremely well written." - Friends Review.

**Conversations with Nostradamus Volume 3 by Dolores Cannon-** The third book in this series contains 132 additional quatrains written and deciphered by Nostradamus himself, plus the exposure of bogus quatrains erroneously attributed to the great psychic. This volume continues to work through various subjects and completes the interpretation of all the known prophecies. This volume includes: More information about the rise and location of the infamous third Anti-Christ, including his name in anagram form and picture as seen by the subject; Predictions concerning increasing natural disasters and strange weather phenomena; An accumulative master index for ease in locating quatrains and subject matter in all three volumes.

**Five Lives Remembered by Dolores Cannon-** The beginning. What do you do when you discover information that is before its time? What do you do when your curiosity takes you on an adventure that is so bizarre that there is nothing normal to relate to? This is what happened to Dolores Cannon in 1968, long before she began her career as a past-life hypnotherapist and regressionist. Travel back with us to that time when the words reincarnation, past-lives, regression, walk-ins, New Age were unknown to the general population. It went totally against the belief systems of the time. It was so startling that they should have stopped, but their curiosity demanded that they continue to explore the unorthodox. The experiment changed the participants and everyone involved, and their beliefs would never be the same.

## History & Prophecy

**Lifting the Veil on the Lost Continent of Mu by Jack Churchward** - A re-issue of the 1926 classic by James Churchward, *The Lost Continent of Mu: Motherland of Men* supplemented with fresh research and new material by the author's great-grandson. He obtained the information by living with monks and translating unknown manuscripts. Over the years, his books have come to be considered occult classics. Now his great-grandson, Jack Churchward, has resurrected this valuable work and added his own research. Included: The Lost Continent; The Land of Man's Advent on Earth; Egyptian Sacred Volume, Book of the Dead; Symbols of Mu; North American's Place Among the Ancient Civilizations; The Geological History of Mu; Ancient Religious Conceptions; Ancient Sacred Mysteries, Rites and Ceremonies

**The Stone Tablets of Mu by Jack Churchward** - is an examination of a previously "not publicly available" portion of James Churchward's writings. In the booklet *Copies of Stone Tablets Found by William Niven at Santiago Ahuizotla near Mexico City* (1927), James' early ideas and interpretations of the Valley of Mexico Tablets are presented and nine of the twenty-two tablets are revealed for the first time. James Churchward's writings (some six other books) presented his groundbreaking theories and proofs of an ancient advanced civilization in the Pacific Ocean. Churchward's research into the subject spanned several decades, starting from his time in India where he was taught to read the ancient Naacal tablets, a repository of wisdom from a time before savagery. Churchward's study of the Naacal tablets indicated that the Garden of Eden was not in Asia, but was the now sunken Pacific Ocean continent that he called Mu and that the Biblical story of creation as well as all civilization originated there. Churchward's recognition that the Naacal Brotherhood also composed the tablets William Niven discovered, places their ancient wisdom and knowledge in our laps and offers the opportunity to impart the same to the reader.

**The Old Is New by L. R. Sumpter** - In the course of writing this book, answers to the following questions and many others were given in both narrative and visual form. **Atlantis and the New Consciousness by Stuart Wilson & Joanna Prentis** - Using past life regression, Prentis and Wilson and a mutual friend return to previous lives on the lost continent of Atlantis. They provide a gripping description of their origins on the planet Sirius, arrival of Atlantis, the nature of Atlantean civilization, their healing abilities and what brought about the destruction of the continent. This is a book that provides, through the use of deep hypnosis and past life regression, a fascinating look at daily life on the lost continent. And most startling, they make a definite correlation between the events of Atlantis and what is occurring now as we approach 2012. Will the same scenario be repeated?

## Metaphysical & Spiritual

**Finding Your Way in the Spiritual Age by Dr. Dan Bird**-This book will attempt to explain and possibly guide you in understanding the greatest desire of mankind, to know why we are here and why we exist, all told from a human perspective without esoteric jargon. In short, we are here to learn, but learn what? And how do we go about it? Is this anything like attending grammar school and onward? Not so much, this is real, this is life, the true core of why we are alive, part of everything we think and do during our lifetime on Earth. Though we are flesh and blood, with all the urges, needs, and desires that entails, we are also, at a higher level, a soul, with a whole other set of goals in mind.

**9781940265568.....103 pages.....\$11.50**

**Waking Up to the Spiritual Age by Dr. Dan Bird**-A Major Spiritual shift is occurring in this world, and more people are experiencing unexpected phenomenon in their daily lives. We might notice unusual “signs”, intuitive thoughts, randomly hear a song a passed friend or relative loved, or smell a perfume that triggers a strong memory. Most often these are tossed aside as coincidences and immediately forgotten. But what if there were no coincidences, and everything happened for a reason? What if we know much more than we think, but simply haven’t learned to pay attention to what is really happening around us? This book is for those who are experiencing this shift but are not sure of what they are feeling. It is an introduction of sorts for “newly awakening” individuals who feel there is more to life than we are aware of using our five senses. What if those intuitive thoughts and dreams are messages? What is their purpose? I believe they can help us make sense of why we are here, and guide us to reach our highest potential and goals. This help is available to everyone, but only if we are aware of it. Spiritual help is all around us. If you are ready to begin your own Spiritual journey this book is for you!

**9781940265339.....112 pages.....\$11.00**

**From Psychic to Soul by Diane Lewis** - is a reveal of how every person is psychic. How we already, knowing or not, use our abilities and how we can expand on them with easy to understand real life examples. It further introduces little known concepts as well as concepts I have created for understanding. You will also learn what your soul is and the concepts surrounding it.

**9781940265452.....100 pages..... \$8.00**

**Heaven Here on Earth by Curt Melliger** - While attending catechism class as a child, Curt Melliger was taught that if he obeyed the rules all his life he would be allowed to enter a place called Heaven when he died. The priest and nuns described it as a sacred abode up in the clouds that contained all of the very best things in the universe. There was sunshine and blue sky, pretty flowers and double rainbows, peace and happiness, ringing bells and beautiful music, saints and angels and the all-enveloping love of God. The young boy’s mind processed this information and came to the stunning conclusion: “Why, they’re talking about Earth!”

Since that early revelation Curt has been discovering other examples of paradise incarnate wherever he goes. This book is a collection of stories on subjects ranging from water, fire, and stars to adrenaline rushes, near-death experiences, and the place where goosebumps originate, from skiing powder and climbing high mountains and walking in reverse to the changing of seasons, the lessons of night, and the reason for dreams, from wild animals, unseen visitors, and beings that do not die to the magic of the human touch, beatific ecstasy, and what awaits us on the other side of the veil that only partially separates this golden realm from the perfect one.

For the Ultimate is much closer than we have been led to believe. Indeed, it is readily available right here on this planet, this Garden of Eden, this one-of-a-kind oasis in space.

Right now.

## Metaphysical & Spiritual

**Spiritual Gold by Paulinne Delcour-Min** - Spiritual Gold is a wonderful book about past lives. It shares the treasures of a soul's journey through time and introduces us to angels and inner guides. The past life memories in the book have been retrieved through regression and stretch back over 10,000 years. They include hearing Jesus speak, and reveal his lost teachings of reincarnation; they take us to other worlds and unravel the secret of the Sphinx. But understanding the past brings a warning about our future.

The years we are living through now form a pivotal point in time. Our choices could bring us to a Golden Age – or a great catastrophe. Spiritual Gold helps us step into our power. It may be a book about past lives, but its eyes are firmly on the future. We can make a difference to how things turn out. We can forge our destiny.

**Kiss The Wind by Victoria Hunt**- Faeries have been around since the dawn of time, linked to the soul of nature and connected to humanity through a spiritual bond of kinship. And yet, this connection was harshly severed with the advent of industry and the slow withdrawal of our focus from nature to monetary gain through the use and abuse of the planet. Now is the time to reawaken the sleeping powers lying dormant within yourself that connects you to the faery world. *Kiss the Wind: Understanding the Elementals and Faeries* can help, for it's a true account of the denizen of Faery. Don't wait until it's too late. It is now the time to reestablish the connection and this book can be the first step.

**The Essenes by Stuart Wilson & Joanna Prentis**- Take a trip through time to uncover the mysterious Essene knowledge and secrets that Jesus was taught. • Did Jesus really die on the cross? Who was Mary Magdalene and what was her real connection with Jesus? • Extensive new information about the secretive Essene mystery schools. It is one of the great tragedies of Western culture that Christianity forgot and eventually denied its Essene roots. Those roots are herein explored from the perspective of past life regression. Fascinating new information emerged, including Essene links with the Druids, the existence of a secret Core Group around Jesus, and contacts with the Order of Melchizedek. Perhaps the most remarkable thing is that the Essene Jesus is restored to us, bringing to life the wise and loving Being who has been obscured by so much doctrine and dogma. His words speak to us across the centuries and open a clearer understanding of the Way, which he established, and the ultimate goal of that Way. This book makes clear that Jesus did not stand alone. He had the backing of a powerful and dedicated team of Essenes, including Joseph of Arimathea.

**Opening to Fullness of Spirit by Carolyn Greer Daly**-Should you ever decide to shake your fist at God and demand Truth, hold on to your seat and prepare yourself for a spiritual adventure the likes of which you couldn't imagine. On Easter Sunday of 1971, I did exactly this and found myself propelled across the sea of tradition onto the foreign shores of another realm of reality. In innocent trust I opened a door, stepped over the threshold with no idea where it would lead. Most stories have a beginning, middle and an end. My story is different I'm not sure when it began, perhaps on Easter Sunday, 1971, or perhaps hundreds of years before that date with a lady named Ellen, and I doubt that it will end with my death. It is my hope that this story will continue when someone else, perhaps a family member, will pick up a pen and find me on the other side.

**The Search for Hidden Sacred Knowledge by Dolores Cannon**-In my books *Keepers of the Garden* and *The Custodians* the story was told of how the extraterrestrials developed life on Earth. It all took an inconceivable amount of time as life was established and began to flourish. As the species grew and began to develop intelligence then the ETs lived among them for many, many years because they didn't die until they wanted to. Thus these beings were treated as gods and goddesses and legends were born. Because they knew they would eventually leave and return to their homes they tried to pass the knowledge on to specific beings that they thought were capable of carrying it on. They also interbred with the natives to produce those who would have some of the ET abilities and be able to help the people after they left.

**Power of The Magdalene by Stuart Wilson & Joanna Prentis-** What is the secret of Mary Magdalene's power? Who were the female disciples of Jeshua? Did Jeshua and Mary Magdalene have a child? How can we understand the New Children now being born? What changes will the New Consciousness bring into our lives? This is the story of the Essenes and the female disciples of Jeshua who were deliberately marginalized and written out of the record. This book focuses on the partnership of Jeshua and Mary Magdalene, and culminates in the work of the Crystal Children who are just now being born. We have the power as Divine Humans to co-create this shift on The Earth with ease and gentleness. We can make the difference between an easy birth or a traumatic one by choosing to move consciously into the New Era of peace and love. **Jesus and The Essenes by Dolores Cannon-** This extraordinary document represents a new form of historical research, and straightens out many open questions and misinterpretations. It takes the form of direct dialogues between a modern researcher and a member of the Qumran Essene community. Alive around the time of Christ, this community has become the focus of ideas about the connection of Jesus' teachings to earlier traditions. This book gives a full description of the nature and purpose of the community, and the birth and upbringing of Jesus and John the Baptist. Also, it gives Essene renderings of Key Old Testament stories, concerning Moses, Ezekiel, Daniel and others, plus startling insights into ancient history. This information is candid and for real, even about the Dead Sea Scrolls, and many Biblical images and statements are corrected and added to.

**Fantastic Adventures in Metaphysics by Michael Perlin**-War, poverty, pollution, prejudice and human injustice are still going on today because we currently live in a world where separation rules the collective consciousness. This separation consciousness has caused man to identify with his religion, causing a worldwide distortion of spirituality. This book explores the secret teachings of all the great philosophers and spiritual geniuses of our time and reveals the common theme throughout all of them. According to the esoteric schools of advanced knowledge, certain divinely inspired teachers brought spiritual, philosophical and scientific knowledge to the human race following a global cataclysm. This planet has had a history of unexplained phenomena that still baffle scientists today. There have been structures built all over the world that are simply out of place and out of time. Was man on the scene much longer than we previously thought? Did they leave us clues in writing, sacred geometry and architecture about who they were and where they came from? Do these clues reveal the truth about who we really are? Who are we? *Fantastic Adventures in Metaphysics* explores these questions without favoring any one religion. Prepare for an incredible journey into our ancient past and into the world of metaphysics.

**Living The Life-Force by Nicholas Vesey** - This book is a 'primer' on spirituality for those reluctant to join anything. Those who end up on yoga mats, in coffee bars or in airport lounges wondering what life is about, but not wanting to 'get involved'.

It confronts the question of whether there is or there is not a 'Life-Force' (and if so how to relate to it) in a 'gonzo' style that is irreligious and yet suggests at a latent spirituality, engaging the reader through appealing to their own experience, rather than the beliefs that they might hold.

This book wants to inspire others to question who or what they are, to free themselves from limiting and separating ideas, to surrender to a higher power that we are part of, to find trust, love and joy.

**Reconnecting To The Earth by Aaron Hoopes** - In this book I intend to take you on a journey of self-discovery. It is not always an easy path, but we have reached a point where action is required if we as a species are going to continue to live on this planet. I have no intention of talking about what's going to happen if you don't follow these practices or rehash the same old "fear porn" about how everyone's going to die if the whole world doesn't rally together. There is plenty of that out there already. The direction this book takes is toward something much more positive. This journey will take some discipline and integrity. There may be some difficulty and struggle along the way. However, as you reconnect with the Earth, you will feel the changes taking place within you . . . and that can change the world.

**Owner's Manual for the Mind by Patrick Andries-**The idea for this book began with a single thought, "What if we were given an owner's manual when we were born?" Imagine what our lives might be like if we had received this guidance. We have manuals for just about everything else. An owner's manual allows us to learn how to use something more effectively and to troubleshoot problems. The truth is that we *have* been given instructions on how to live a healthy and prosperous life. This is the foundation of many great philosophies and religions. The problem that sometimes arises is that these teachings take on a certain twist that alienates people from it. This has at times created as many problems as solutions. There is a certain fascination in the incredible untapped potential of our minds. Some studies once suggested that we use only 10% of the capacity of our minds. Today that estimate has been revised to about 2-3% of the power that lies within. Imagine what more can be done with all of that as yet unrealized potential. What is standing in our way? How do we move into a fuller realization of who we are? These are the questions that we seek to answer in this book.

**Imagining the Unimaginable by Richard Rowe**- Innocent people are suffering. Terrorism, war, mass murders, and crime are in the headlines every day. I hear reports of a drive-by shooting. I watch the news and witness recent actions of groups inflicting pain on innocent men, women, and children. Empathy kicks in and I imagine how it would feel to suffer like the victims. I ask myself how people can treat other human beings so bad? Then I tell myself I am thankful for my life and say a prayer for those who are suffering. Others may volunteer, donate and help out. We do what we can. I try to shift my focus to stories about good people who are helping others. Some of us meditate, others pray. Some read, exercise, watch TV, or focus inward. After a time, the internal storm passes. We continue on with our lives and let the following questions linger. Why do innocent people suffer? What's the point of suffering? Why are we here?

**The Sleeping Phoenix by Victoria Pendragon** - Back in the 90's when I'd been assiduously side-stepping all the messages I was receiving from the healers I was visiting about "being a healer" myself, I had a visit one afternoon from a form of consciousness – an immense glittering white light - that called itself "an embodiment of the light." It told me that the time had come for me to share what I had learned with others. This book, the third and most comprehensive of the Sleep Magic books, is a continuation of the sharing. It is an in-depth exploration of the technique and process of Sleep Magic. I hope that you find it useful.

**And Then I Knew My Abundance by James Nussbaumer** - This book is concerned with making contact with this effective and purposeful part of the mind. You will learn to realize your consciousness in a different way from the familiar way it may have been making you operate in the physical world. You will learn to recognize consciousness as an entity that you create, but do so from behind it. I know this may seem confusing, so for now, and just to buffer the impact of this thought about "you being behind your own consciousness," allow me first to ask you to consider a couple of extending thoughts. By extending I mean sharing our Reality together as One.

Ask yourself, what is truly a higher order: the physical or our natural Divine Self? If separated from nature the mind becomes a hollow bundle of shallow thoughts, lacking all activity, without luster and authenticity, seeking only projected images seen as form, and without the pleasure of being real, or, let's say Divine. I do realize we're just beginning our journey together through this book, but for now consider a projected image being something the world has taught us to see since our birth into this world. Something your physical past has taught you to picture in your mind.

**Dance of Eternal Rapture by Garnet Schulhauser** - It has been quite a ride! Ever since I met my spirit guide, Albert, disguised as a homeless man, that fateful day in 2007, my life has never been the same. I went from being a buttoned-down, straight-laced corporate lawyer to an author who has published four books (including this one) about my dialogue and subsequent astral travels with Albert.

Once I decided to come out of the spiritual closet there was no turning back, and I have no regrets whatsoever. I have lost a few friends along the way (some of whom likely think I am suffering from an early onset of dementia), but I have gained many new friends who have encouraged me to continue writing about the revelations from Albert and the other wise souls I have met during my travels.

This book is a sequel to my first three books, *Dancing on a Stamp*, *Dancing Forever with Spirit*, and *Dance of Heavenly Bliss*, as it chronicles my most recent astral adventures with Albert. As with the first three books, Albert had a carefully-planned agenda all mapped out—designed to teach me (and all of humankind) a lesson or to provide us with a nugget of wisdom to help us understand who we are and why we are having a human journey on this planet.

This is the continuation of the saga of the author's spiritual awakening as recounted in his first book, *Dancing on a Stamp*. In this sequel, the author describes his most recent exploits with Albert who appeared one night to guide him on a series of out-of-body adventures to explore a dazzling white city on the Spirit Side, other planets in the galaxy with intriguing life forms, and some of the far-flung regions of our planet that suffer from human abuse. These fascinating astral excursions were designed to inspire us to renounce the dark side of humanity in favor of spiritual enlightenment.

**Baby, It's You, Messages from Deceased Heroes by Maureen McGill -** is based on a true collection of heartfelt and mystical experiences recalled by family members whose loved ones died in service to their country or in tragedies such as 9/11. Ms. McGill's collection of stories confirms love never dies. She takes the reader through a wondrous journey by sharing how Spirit sometimes pierces the Other Side. The thrill of the song that comes on the radio, in church or in an elevator rocks their world. The touch in a waking dream; your voice that comes in the moment, the kids seeing you on the porch. These comfort packed messages confirm love is eternal. As the song title confirms, "That's the Way Love Goes: We are Together Again...At Last."

**Legacy from the Stars by Dolores Cannon**- We are children of the stars. This is our legacy and our heritage. In the history of the cosmos Earth is a young planet. Our souls on the other hand have been around forever and will continue to be around forever. Thus, Earth is not our only home. We have lived many lives in unusual environments before deciding to journey here and learn the lessons of Earth. After our schooling is completed on this planet we will journey onward to discover new worlds to explore. The memories of these soul journeys are recorded in our subconscious and Dolores shows that they can be retrieved through regressive hypnosis. She reports dramatic cases where the subjects relived other lifetimes in strange environments-inhabitants of other planets.

**From Fear to Love by Donna Lynn**-What would you ask if you could talk to the beings who inhabit your worst nightmares? And what would you do if they answered?

From the time, she was a small child, Donna Lynn experienced night terrors that were so disturbing they affected her waking life and relationships. Eventually she chose to consciously venture into that territory of the unknown to do battle with otherworldly beings who had haunted her dreams since childhood – only to find out they are not here to do battle at all. They come with powerful messages of love and healing on both personal and planetary levels. This book is a message of hope that we as a species can overcome the pervasive consciousness of fear and anxiety in our world today.

"The dark heavy secret I have carried is that a deep and important portion of my life involves interactions and friendships with beings that are alien. It is now time to bring this secret out from the darkest recesses of my memories and shine a spotlight upon it, so that others – and I know there are many – need not feel alone or frightened any longer, and those who are curious and desire to be a part of this may do so. We are at an important crossroads for humanity and the Earth, and my fervent wish is that Love will win out over Fear – but at present, the final result remains to be seen."

**Custodians by Dolores Cannon** - UFO sightings and abductions by aliens were the beginning, the tip of the iceberg. Dolores Cannon's work in Hypnosis has taken the study beyond abduction. Dolores traces the phenomenon from the simple to the complex. Exploring areas untouched by other investigators, she makes the unbelievable become acceptable and understandable!

**9781886940048 ..... 556 pages ..... \$20.00**

**The Legend of Starcrash by Dolores Cannon** - Through regressive hypnosis, a lost legend of the history of mankind has been retrieved from the recesses of time. Did the American Indians descend from the inhabitants of an alien spacecraft that crashed in the Alaska-Canada region thousands of years ago? *Keepers of the Garden* told the story of the original seeding of the planet Earth by aliens from outer space. Starcrash indicates that aliens continued to come to Earth, some intentionally and some by accident, throughout our history. In order to adjust to harsh conditions, they were forced to interbreed with the local aborigines. Does their blood still flow in the veins of certain American Indian tribes?

**9780963277671 ..... 250 pages ..... \$14.00**

**Keepers of the Garden by Dolores Cannon** - Dolores uses information obtained from regressive hypnosis to formulate a provocative viewpoint on the ancient astronaut theory of human origins. Her findings indicate that the Earth was seeded eons ago by travelers from outer space. These visits by ancient extraterrestrials did not end with their intervention in human evolution. They have continued up to the present day resulting in a whole class of contemporary humans who have been subject to alien abduction.

“We don’t realize how much power we really have. No one can take our power away from us unless we allow it. We can create anything we want in life. We can heal our bodies. We can have it all. All we have to do is remove the limitations we and others have placed upon us.”
